RING SIZER

Measure a ring you already own.

1 Check the scale

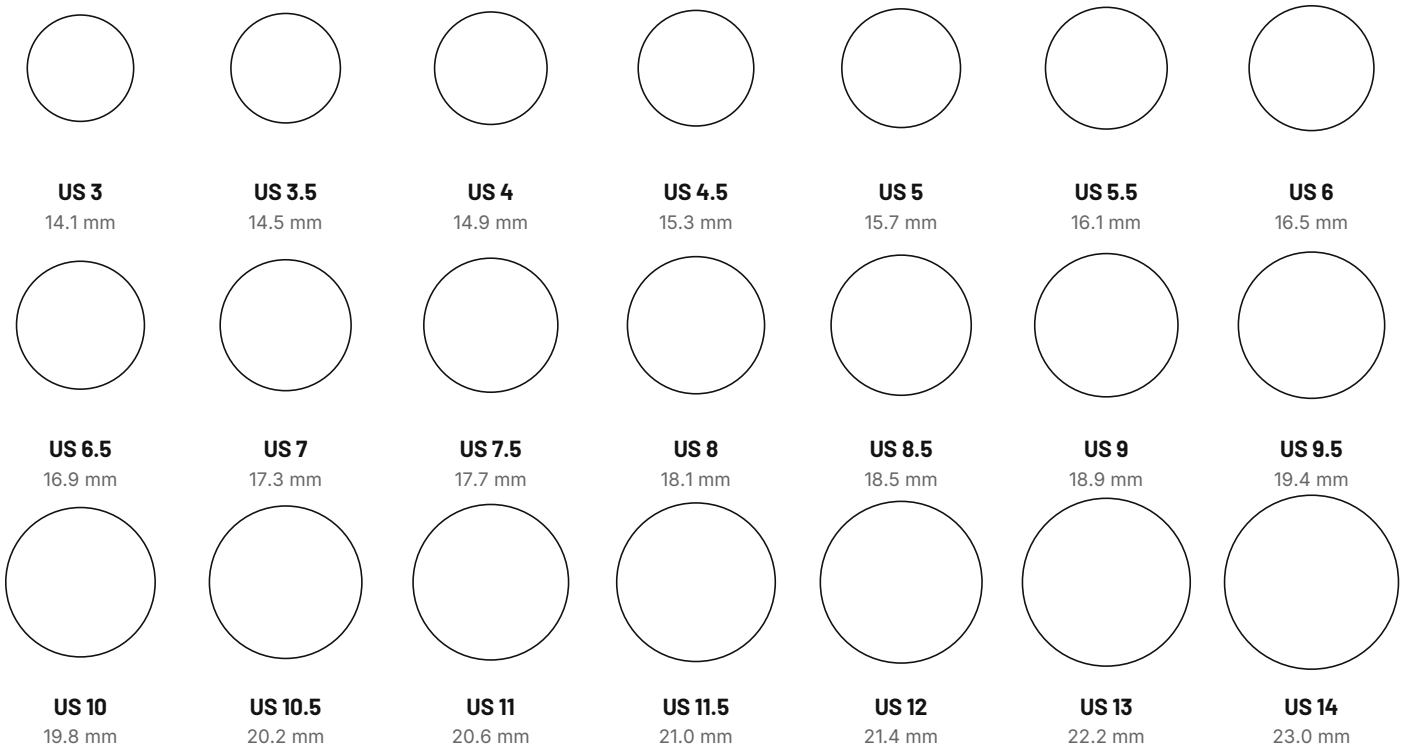

Print this page at 100% or "Actual size". Do not choose "Fit to page" or "Shrink". A printer that resizes the page makes every circle wrong.

Lay a bank card on the outline on the right. It should fit the lines exactly, rounded corners included. If it is smaller or larger, print again at 100%. No card? Hold a real ruler against the ruler at the bottom: the 100 line should read 100 mm.

BANK CARD OUTLINE 85.6 x 54 mm

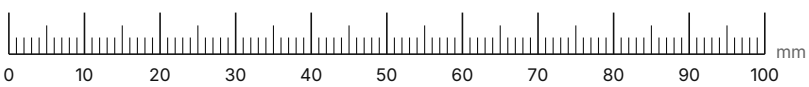

2 Lay your ring over the circles

Set the ring flat on the page. Find the circle that meets the inside edge of the ring all the way round. That circle's number is your US size. If the ring sits between two circles, choose the larger.

US 3 14.1 mm	**US 3.5** 14.5 mm	**US 4** 14.9 mm	**US 4.5** 15.3 mm	**US 5** 15.7 mm	**US 5.5** 16.1 mm	**US 6** 16.5 mm
US 6.5 16.9 mm	**US 7** 17.3 mm	**US 7.5** 17.7 mm	**US 8** 18.1 mm	**US 8.5** 18.5 mm	**US 9** 18.9 mm	**US 9.5** 19.4 mm
US 10 19.8 mm	**US 10.5** 20.2 mm	**US 11** 20.6 mm	**US 11.5** 21.0 mm	**US 12** 21.4 mm	**US 13** 22.2 mm	**US 14** 23.0 mm

Using string or a paper strip instead?

Lay your string flat along the ruler and read the length in millimeters. Look that number up in the Circumference column of the chart at alliciante.co/pages/size-guide.

BRACELET & ANKLET SIZER

Mark the lengths on a string, then try each one.

1 Check the scale

Print this page at 100% or "Actual size", on its side (landscape). Do not choose "Fit to page" or "Shrink".

Lay a bank card on the outline on the right. It should fit the lines exactly, rounded corners included. If it is smaller or larger, print again at 100%. No card? Hold a real ruler against the cm scale below: it should read 25.4 cm at the far end.

BANK CARD OUTLINE 85.6 x 54 mm

2 Mark the lengths you want to try

Lay a string or a strip of paper along the ruler, starting at 0. Mark the lengths you want to try with a pen. Bracelets are shaded on the left, anklets on the right.

Wrap the string around your wrist or ankle and try each marked length to find your preferred fit. Test the fit by bending your wrist, or while standing and walking for an ankle. You may want to add a quarter to a half inch of extra length, depending on your style preferences and comfort. A length written like 7"+1" is adjustable: it can be worn from 7 to 8 inches.
